ATTENTION RESIDENTS & BUSINESSES

Gould Street

Road Work the Week of August 19th

The Department of Public Works, working with All States Asphalt will apply an asphalt-rubber surface treatment with stone aggregate to **Gould Street** and 7 additional streets town wide.

The process will apply hot asphalt / recycled rubber to the road which is then covered with a stone chip. This system seals and waterproofs the existing pavement and provides a new driving surface.

The new surface can be driven on within minutes after the stone chip is applied. Care must be taken not to spin your tires or turn sharply until the loose stone is swept up. The contractor will sweep most of the loose stone within hours after the application. The Highway Department will sweep again approximately one week after the application.

Please do not park on the roadway; vehicles parked on the roadway maybe be towed. We ask residents to refrain from any activity, which could result in water collecting on the roadway until the work is complete.

This process may cause minor delays getting in or out of your driveway or street.

We thank you for your cooperation. If you have any questions or comments, please feel free to contact the Department of Public Works Highway Division at (781) 455-7550 between 7:30 a.m. and 3:30 p.m., Monday – Friday or email rhoyland@needhamma.gov.
