

ViewPoint Cloud

Updated May 22, 2020

We recently launched ViewPoint Cloud (VPC) On-Line Permitting Software and for quick access click here:

<https://needhamma.viewpointcloud.com/>

If you have an account with another town, you won't even have to re-register with Needham.

Please Read: Paper Permit Applications will no longer be accepted. You must use VPC.

Please Read: Permits are not issued until we have processed your payment. No inspections will be scheduled until a permit has been paid in full. No exceptions. You will need to show the Inspector a copy of your Permit.

Scanned Documents

Many of the attachments that we receive with the VPC Permits are photographs taken with iPhones and iPads. Unfortunately these aren't clear pictures and many times we have to request a scanned copy. If you have an iPhone or iPad, please check out Apple's Document Scanner that is in the Notes tab. This produces a much clearer image therefore allowing us to process permits quicker. Please check it out at:

<https://www.imore.com/how-use-document-scanner-iphone-and-ipad>

Payment

Payment is by check only. Please write the Permit Number and Property Address on your check, and either:

1. Drop your check off in our mail slot at 500 Dedham Avenue or;
2. Mail your check directly to us (will take longer to issue the permit) at:
Needham Building Department, 500 Dedham Avenue, Needham, MA 02492

We appreciate your patience as we all work together to get your permit applications processed. Please call 781-455-7550, Ext. 309 for assistance.

PLEASE NOTE that the phone number on your Caller ID is the Town Hall's phone number, and not our phone number. We are 781-455-7550, Ext. 309.
