NOTICE

ATTENTION RESIDENTS OF Country Way, Village Lane and Scott Road

The Department of Public Works Highway Division will be working with a hired contractor (All States Asphalt) to apply an asphalt-rubber surface treatment with aggregate **the week of Sept 12th**. (Weather permitting).

The process involves an application of asphalt-rubber and stone cover to the roadway. This system seals and waterproofs the existing pavement and provides a new driving surface. This is an important and effective asset preservation process.

The new surface can be driven on immediately; however, care must be taken not to spin your tires or turn sharply until the loose stones are swept up. Most of the excess loose stones will be swept up after the application has been completed. The Highway Department will sweep the remaining loose stones approximately 1 week after the application. The new surface will become smoother over time.

DPW staff will be preparing the road surface in advance of the application. During this time between the hours of 7:00 AM and 4:00 PM we ask residents not to park on the roadway and refrain from any activity, which could result in water collecting on the roadway until the work is complete.

Vehicles parked on the roadway will be towed.

Please take into consideration that this process may cause delays in getting in or out of your driveway or street.

For DPW project updates, please visit: www.needhamma.gov/constructionalerts

We thank you for your cooperation. If you have any questions or comments, please feel free to contact the Department of Public Works Highway Division at (781) 455-7550 between 7:30 a.m. and 3:30 p.m., Monday – Friday or email rhoyland@needhamma.gov.
