

New 2017 Zoning By Law Changes: Articles 24 through 30

Floor Area Ratio

The term “Floor Area Ratio” means the floor area divided by the lot area. Floor area shall be the sum of the horizontal areas of the several floors of each building on a lot, as measured from the exterior faces of the exterior walls, but excluding basements, attics, half-stories located directly above the second floor, unenclosed porches, and up to 600 square feet of floor area intended and designed for the parking of automobiles whether in accessory buildings or structures, or in main buildings or structures.
