**\* NOTICE \***

**\* NOTICE \***

**TO THE RESIDENTS  
OF  
Marked Tree Road & Central Ave**

The Department of Public Works has contracted Revoli Construction to install a new water main in a portion of Marked Tree Road at Highrock Street. To Central Ave at Pine Street. Each resident will be notified at least 48 hours in advance of a water shutdown. Water shutdowns will occur when the new main is connected at intersecting streets and when the house service connection is made. Generally, the contractor will completely install the water main in the street, and then connect all the services. Each resident can expect 2 to 3 water shutoffs during the project. The length of time that the water is shut off will vary. Residents will be notified when the shut down will occur and for how long the shut down is expected to last. Notices will be hand delivered to each residence.

Based off the schedule provided, the contractor intends to start work on August 8, 2022. Due to safety concerns, there will be no parking on these streets while under construction. Once the construction has started it should take approximately 12 weeks, weather dependent, for the contractor to complete the work. They will begin work on Marked Tree Road @ Highrock Street down toward Central Ave.

If you have any question or would like more information on this project, please feel free to stop by the Engineering Division at DPW, or you may contact Justin Savignano or myself in the Engineering Division at (781) 455 – 7550

Thank you for your cooperation.

Tom Ryder  
Town Engineer
