

Article 30

Appropriate for Sewer Cash Capital

Sewer Cash Capital for FY2024 consists of three items:

- A feasibility study for the Cooks Bridge Sewer Pump Station to evaluate potential locations for the replacement pump station, as well as the possibility of switching to a gravity system. The current canister-style pump station at Cooks Bridge is beyond its designated life cycle and requires constant maintenance.
- Fleet Replacement:

UNIT	EXISTING	DIVISION	YEAR	REPLACEMENT	AMOUNT
11	Ford Explorer	Sewer	2013	SUV Hybrid	\$52,059
17	Ford F-550	Sewer	2012	Work Truck Class 5	\$148,477
103	Deere Backhoe	Sewer	2012	Backhoe	\$200,105

- Sewer System Infiltration and Inflow – replacement of the existing sewer flow monitoring system throughout Town. The current system is past its useful life and will be replaced with a more modern system requiring less maintenance.

The Select Board unanimously recommends adoption of this article.
