

Article 1

Appropriate for Roadway Improvements

- An agreement between the Town and Eversource allowed Eversource to make natural gas main repairs and capacity improvements in a shorter time period to limit disruption on Webster Street between West Street and Parkinson Street. Eversource completed the work outside of the Town's normal street opening permit period of April to November.
- Eversource provided funding to the town for a gutter to gutter repave, and the Town will oversee the work using town contractors and staff, using this funding.
- These general fund receipts must be appropriated by a Town Meeting vote to be used for their intended purpose. DPW staff has validated that the \$205,000 provided by Eversource will cover the Town's costs.

The Select Board unanimously recommends adoption of this article.
