

An introduction to

An electricity program from,
and for, the town of Needham

a municipal electricity aggregation program.

To say it another way, it is...
a form of group electricity buying.

It's a **municipal alternative** to the electricity marketing that you receive in the mail and over the phone.

Why participate?

More renewable energy for
less than Eversource at launch
(Future savings cannot be guaranteed.)

Three new electricity supply choices

Stable and consistent pricing until **March 2027**

will **NOT**...

replace Eversource as your electric utility.

We are the electric utility
for Needham no matter what.

But we get to choose
our electricity **supplier**.

EVERSOURCE

Three ways to buy electricity in MA:

- 1 Your utility (**EVERSOURCE**) buys it for you = **Basic Service**
- 2 You sign a private contract with a commercial electricity supplier, and they buy it for you
- 3 The Town signs a contract with an electricity supplier that you can benefit from, and they buy it for you
= **municipal electricity aggregation**

How aggregation works

Before the program begins

EVERSOURCE provides you with two services:
They both deliver and supply your electricity.

Supply & Delivery

Eversource both delivers and
supplies your electricity.

Customer

You receive electricity.

How aggregation works

Eversource continues to deliver your electricity, but Needham buys cleaner electricity from Constellation.
